Horticulturists.

To Our Flower-Loving Friends and Patrons:

IT gives us great pleasure to send you our catalog of Gladiolus for 1932 and with it goes the feeling that this will be a year of great activities in all lines of gardening endeavor. Never have we noted so much keen interest as was evident on every hand the past year, nor such keen rivalry in the show rooms by members of the Gladiolus Society and other organizations. All of which points to the ever growing interest in the Gladiolus, and the skill in gardening.

In spite of the discouraging weather conditions of the past season, we are looking forward, hopefully, to better conditions, better flowers, and larger and better shows in which you are invited to exhibit.

We are pleased to say that we harvested a large crop of Glad bulbs, which comprise a twelve-acre planting. The bulbs are of excellent quality, and we are prepared to supply you with as superb stock as it is possible for you to procure from any source at any price.

In examining this catalog, you will find many new Glads of exceptional merit listed, also many of the standard, meritorious varieties that have been great prize-winners at the leading shows throughout the country the past year. You are sure to find some varieties that you will want to add to your collection, and at prices as low as is consistent with the production of healthy, true to name stock. In the future, as in the past, it will be our constant endeavor to give our patrons the very utmost in satisfaction and service.

We want to thank all of our customers for their liberal patronage during the past year, and for the 1932 business which we will appreciate.

Yours for better flowers,

Riverview Gardens

A. J. WILKUS, Prop.

Our Gladiolus Report

The Gladiolus shows during the 1931 season in different parts of the country at which we exhibited and others at which I assisted in the judging, gave me a good opportunity to study the relative merits of the many fine, outstanding varieties of Gladiolus; and also the varieties that have found favor from critical fanciers and visitors at our gardens in which some eight hundred varieties bloomed during the 1931 season.

Some varieties are outstanding; some very good. The price does not always show the merit and beauty of any variety. When there is a quantity of stock in any variety, the prices drop as with any other commodity. New varieties are high because of their scarcity. Some drop more rapidly in price than others, as they increase faster; some will always be high, as they increase slowly.

The outstanding varieties which were judged as the finest flowers at the Minneapolis, Duluth, State Fairs and the National Show at Cleveland, O., are: Picardy, Minuet, Jane Addams, Mrs. Leon Douglas, Salbach's Orchid, Capt. Boynton, Albatross, Pride of Wanakah, Queen Mary Nurial, Glorianna, Mother Machree, Coryphee, Betty Nuthall, Veilchenblau, Paul Pfitzer, Golden Dream, Joerg's White, Mr. W. H. Phipps, Catherine Coleman, Pearl of California, Pfitzer's Triumph, Dr. Bennett, Marmora, Hinemoa, Aflame, Melody, Saraband, Chas. Dickens, and Mrs. F. C. Peters.

First Group of Outstanding Varieties

We must not forget to mention the following varieties which were awarded blue ribbons in their respective classes: Pride of Wanakah, Marietta, Giant Nymph, Longfellow, Copper Bronze, Orange Queen, Dr. Moody, Carmen Sylva, Mammoth White, Henry C. Goehl, Trudle Grotz, Mrs. W. P. Sisson, Virginia Hale, Maurice Fuld, Gertrude Erry, Rozan, Peach Rose, Taro, Beverley, Helen Howard, Marnia, Emile Auburn, Shell Pink, Glorianna, La Paloma, Ming Toy, Apricot Glow, Gold Eagle, Rose Mist, Mrs. C. Coolidge, Souvenir, and Golden Frills.

Veilchenblau is gorgeous when grown from a full-sized bulb. It is tall and large, with clear violet-blue flowers. It is one of the very finest Glads; winning two first prizes at the National Show, two at the Minnesota State Fair, and one at the Minneapolis Show. At the Minnesota State Fair it was also awarded the most meritorious flower in the show.

Picardy, Aflame, Minuet, Mr. W. H. Phipps, and Marmora swept everything before them

in their respective classes. They are indeed all wonderful varieties. **Atlame** achieves the difficult task of being brilliant and striking without entirely losing its delicacy. **Minuet** has size and delicacy combined with flowers of great substance. **Mr. W. H. Phipps** is a delicate shade of La France pink with the habit of having as many as fifteen or more flowers open at the same time. This quality makes it unapproachable as a show flower. **Mother Machree** is one of the few oddities of recent introduction that is beautiful. The large, open blooms belong to the smoky class.

Glorianna is a wonderful show flower when well grown. Its rich salmon-pink flowers are very delicate. **Catherine Coleman** is a large, tall salmon rose-pink with just a touch of purple pencilings on the lower petals. It is always a prize-winner. **Rameses** is a new Giant purple with wide-open flowers often measuring seven inches across. The spike is well balanced and very tall. **Rameses** created a sensation in our Gardens and also at the Minnesota Gladiolus Show. **Melody** is a rich lemon-yellow with the ends of the petals beautifully bordered with a delicate orange-red. A very striking variety when used for design work, baskets, or vases.

The outstanding white varieties are as follows: **Joerg's White** leads the list with **Mammoth White** a close second. **Carmen Sylva** is still the best cut flower variety. In the new varieties there is **Albatross** a pure white with no markings. There is still a place for someone to originate a good white Glad that is a pure glistening white of good size and with a long flowering spike.

In the red Glads, **Dr. F. E. Bennett** is a tall, brilliant red, and as a show flower it has no equal. **Pfizer's Triumph** has flowers often seven inches across, and makes a good show flower when well grown. **Victor**, a red with white blotch, grows very tall and we highly recommend it for a good cut flower variety.

Yellow Glads are well represented. **Golden Dream**, heading the list, is a constant prize-winner. In the new yellows of recent introduction, **Loyalty**, **Antoine**, and **Canberra** should have a place in your garden. **Antoine** is the most brilliant, golden yellow colored of all the yellows we have tested or seen this last season. The flowers are of medium size on a perfect spike.

In the pink Glads there are many varieties that are greatly admired. Among them are such varieties as **Longfellow**, **Shell Pink**, **Angel's Dream**, **Al Smith**, **Queen Elizabeth**, and **Rozan**. **Queen Elizabeth** is one of the outstanding pink Glads that is very fine for cutting as well as a show flower.

Minuet leads the lavender class. **Berty Snow** is a very fine early lavender. **Orchid Lady** is a giant in size, and often seven inches

across. Jubilee is also very large and a good clear color. Dr. Moody is a fine landscape variety having a long period of blooming as it produces many side spikes. Jane Addams has wide open flowers of purest lavender.

**Ideal Varieties
For Cut Flowers**

For cut flower varieties Carmen Sylva is a good white, Mrs. Dr. Norton an unusual pink, Break o' Day a good shell pink, E. J. Shaylor a fine rose pink, Crimson Glow a large crimson red, Anna Eberius is a brilliant cerise, Ming Toy a salmon-buff, Marshal Foch a large late salmon-pink, Orange Queen a good yellow, Gold Eagle a good early yellow, and Golden Dream a good late yellow. In the lavender class Mrs. F. C. Peters heads the list. Byron L. Smith is a great favorite among florists.

**"Graceful Prims."
Are
Fast Becoming
Favorites**

I cannot pass up without mentioning the primulinus. This beautiful type renders itself so gracefully for baskets and design work. The daintiness of many of the varieties is well known. Mrs. Calvin Coolidge, receiving the greatest amount of admiration, is a beautiful salmon rose-pink with a yellow throat giving it the appearance of an opal. It is one of the finest color combinations, which blends very readily with the other colors. Aflame is fast coming to the front. Glorianna and Shell Pink are other handsome varieties, both being unusually large, prim hybrids. In the yellows, Souvenir and Golden Frills still top the list. Rose Mist leads the rose-pink and red classes. Sheila is a fine salmon-pink and a favorite cut flower. The Orchid, which must be placed in this same class, has received wide admiration. The long, narrow petals, ruffled and lacinated, are of pale lavender flecked with lavender-pink, and much like a Cattleya orchid in shape. Copper Bronze is of an unusual copper color, La Paloma a new, true orange of fine substance, Orange Queen a beautiful wide open flower is fine for cutting, Melody a striking variety for artistic work, Virginia Lou, a wide open flower of large size the color being a rich lavender old rose pink, and Gold Eagle, a fine early yellow that is a good cut flower.

In a rambling way, I have given you a little information which may be of interest and of value to you. I have only touched upon those varieties which I know, by close observation, have met with the approval of many fanciers and lovers of Glads. The modern Glads of the summer and early fall gardens are the most popular of all flowers. They are valuable to the landscape gardener for "color splashes" and bedding purposes. To the florists and home decorator, they are the most beautiful and lasting of all garden flowers. The spikes growing tall and elegant, sturdy and dignified, slender and graceful, and the color range absolutely infinite.

There is the single spike for the slender vase; a corsage for the luncheon guest; an attractive basket for the debutante; and a glorious bouquet for your friend.

[Be sure and buy good bulbs from growers with an established reputation. There is a big difference in bulbs.]

Riverview Gardens received many awards at the shows during the season of 1931. Won first and highest honors for Commercial Growers in Minnesota Gladiolus Show and Minnesota State Fair—winning cups, trophies, and medals.

Vigorous Nursery Stock

We wish to announce to the public in the Twin Cities and near vicinity that we carry a full line of nursery stock, such as fruit trees, ornamentals, shrubbery, French lilacs, climbing vines; such as large-flowering clematis, etc.

We can save you from 25 to 50 per cent by buying direct from our nursery on the "Cash and Carry" plan. We can give you strict personal attention by helping you select such nursery stock as you may desire.

AMERICAN GLADIOLUS SOCIETY

Join the American Gladiolus Society, the fastest growing special flower society in the world. Dues \$2.00 a year. You receive a monthly magazine devoted solely to the gladiolus. It contains a world of valuable information for Glad lovers. Worth much more than the \$2.00.

Notice—Join the Minnesota Gladiolus Society. The Minnesota Gladiolus Society is an auxiliary of the American Gladiolus Society. Dues \$2.00 a year.

The Gladiolus

In the history of the floral world there have been very few varieties or species which have gained the popularity of the Gladiolus within the same space of time. Within a few years it has risen from obscurity until at the present time it is universally grown and admired by millions.

The reason for this is apparent. Its great variety of colors, ease of culture, immunity from disease, long-keeping qualities as a cut flower and the wonderful effects produced by floral artists in making it up into design work for all occasions, place the Gladiolus in the front rank wherever flowers are used.

This catalog contains the names and descriptions of over 200 varieties and while all are not new, they are all good and worth growing and can be selected to fit any purse, so that all may have a beautiful garden.

While the utmost care is used in keeping the bulbs true to name, if I ever send you a single bulb that is not true to name, just give me a chance to rectify the error. There will be no quibbling as my reputation has been built on the foundation of upright, square, honest and courteous treatment.

In addition to our own productions we have included in the list the best and most popular moderate priced varieties now on the market. In nearly every instance we show the name of the originator in parenthesis following the name of the variety. Varieties that are strictly of the primulinus type with soft tones and wiry, graceful stems, are indicated by the word (Prim.).

We are pleased to offer you the result of years of effort to produce more beautiful flowers. They were produced as a result of our own love for beauty and because we hope to give pleasure to those who also love beauty.

Surround your home with beautiful flowers and there, at the close of day, you will find in your garden rest and refreshment for your soul; in the mornings a renewed inspiration. To your children you will bequeath a more wholesome attitude toward life and an ability to enjoy it. You will attract friends for yourself and help to develop your community.

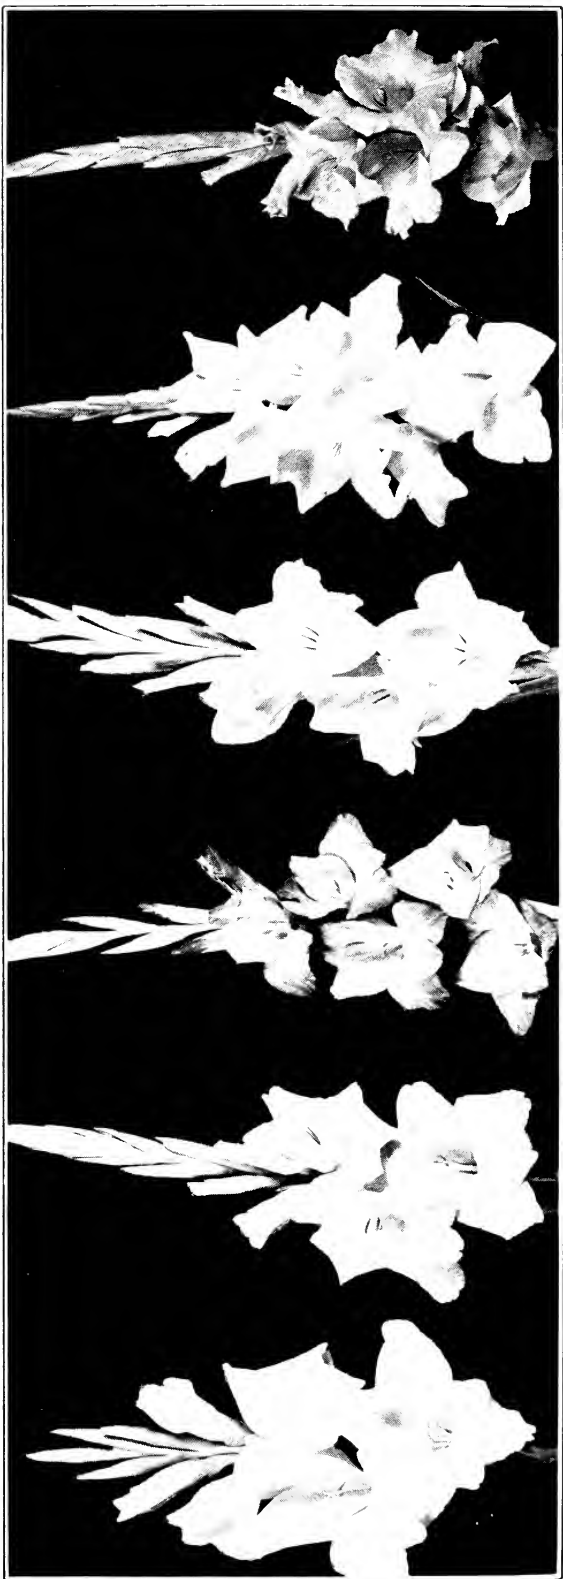

Sincerely yours,

A. J. WILKUS.

How to Grow Good "Glads"

In the spring spade your garden to a depth of at least 12 inches, and when danger from freezing is past. Plant the bulbs in rows about 20 inches apart to admit free and intensive cultivation, and from 3 to 5 inches apart in the row, covering about 6 inches deep with light soil and 4 inches in heavy ground. Be sure that the covering soil is mellow.

Fertilizing. If some good rotted manure can be procured in the fall, give the garden a good coating and spade it under. Realizing that such fertilizer is hard to obtain, we must take the next best choice and use the commercial fertilizers and in this we prefer sheep manure. After row or trench is made this fertilizer can be applied thickly in the bottom and mixed with the mellow earth, but we prefer setting the bulbs, then covering with 1 inch of earth and then applying the fertilizer before the row is filled. This allows the fertilizing properties to soak down to the roots where it is needed. After growth has started another application on each side of the row and thoroughly worked into the soil is of much benefit; in fact, this top dressing can be applied several times during the growing season. Before flower spikes appear, a good top dressing of bone meal worked in will greatly benefit the flowers. Growing flowers should have a constant supply of moisture at all times.

New Gladiolus

This year we are offering seven new gladiolus of our own origination; **Dorothy, White Melody No. 18, Jasper Pink 30-30, North Queen, Radiant Glow, Vernon, and Mrs. Wilkus.** They bloom all very early, grow vigorously and increase rapidly. They will be very valuable for forcing and cut flower business. They are different and outstanding. I know no other varieties that I could more highly recommend to the florists who desire to stock up on new varieties.

Dorothy—Very early. Beautifully formed flowers six open, color clear shell-pink, very large. The spike is tall and fine for cutting. Will not burn in the sun. Blooming in 65 days. Large bulbs, \$1.00; medium, 60c.

Vernon—One of the earliest bloomers in the garden. It will bloom in 60 days. Color is a deep shell-pink. Six large open flowers of good substance on a long spike. Stands up well under extreme heat. Large bulb, \$1.00; medium, 80c.

Radiant Glow—A grand show flower, color is a salmon-pink with throat marking of red and white very pronounced. A wonderful color combination. The flowers are large and well placed on tall spikes that show no sign of sun burns, blooms in 90 days and is a good forcing and cutting variety. Large bulbs, \$1.50; medium, \$1.00.

Mrs. Wilkus—In this beautiful and valuable variety we have a new color combination which is rare in Glads. A great deal of comment has been made regarding this variety. It is indispensable to the florist for dainty colors in design work. The color is a pure cameo pink, deeper on edges; in the throat a faint golden, deeper veridine yellow. The flowers are very large, often seven inches across, five open, well-placed blooms on a strong medium-height spike that is fine for cutting. A distinctive and beautiful Glad that I believe will be very much in demand. At the Minnesota Gladiolus Society Show 1930, it was selected from several hundred seedlings on display by the judges who were unanimous in placing the blue ribbon on it as the outstanding seedling in the show. Only a few bulbs to sell this year. Large bulbs each, \$20.00; medium, \$15.00.

North Queen—A very finely-formed flower of great substance. Large size of pure golden yellow color, deeper than **Golden Dream.** Seven open flowers that are well placed on a long spike. Blooms in 65 days. Large bulbs, \$1.50; medium bulbs, \$1.00.

Jasper Pink (W)—Seedling 30-30. This new, wonderful Glad according to Ridgeway's Color Guide is jasper pink. A new and different color that is very pleasing. Fine, tall spike of 22 or more buds showing 8 open flowers at one time. Substance good. A good grower and propagator. Large, \$5.00.

White Melody (W)—Seedling 18. A fine, tall white of good substance with a slight red stripe on the lower petals. A grand garden, show, and cut flower variety. Winner of first prize as the finest and best seedling at the Minnesota Gladiolus Society Show, August, 1931. Large, \$10.00.

OUR LIST

At these prices all bulbs are prepaid anywhere in the United States.

Per dozen, multiply by 10; 6 at the dozen rate. Minimum order \$1.50 when order is to be shipped.

EXTRAS ON ORDERS: On cash orders of \$2.00 to \$5.00 you may select 5% extra in bulbs. From \$5.00 to \$25.00 select 10% extra on retail orders.

It will pay you to get your friends and neighbors to pool their orders with you. These offers are for cash with order, and orders must contain at least three varieties to get discount.

A. E. Kundred—Salmon-pink with rose-red blotch. Ruffled. Large, 10c; medium, 7c; small, 5c. Blts. 100 for 25c.

Affame—Rose and orange flame. Large, 15c; medium, 10c; small, 5c. Blts. 100 for 25c.

Albatross—Mammoth blooms of white without the slightest trace of any color. Large, 50c; medium, 25c; small, 15c. Blts. 100 for \$3.00.

Albert the First—Very light pink. Tall and many flowers open at one time. Large, 20c; medium, 15c; small, 10c. Blts. 100 for 50c.

Alice Tiplady—Prim. Hybrid. Orange-saffron. Large, 10c.

Al Smith (K)—Fine, tall, salmon-rose. Large, 25c; medium, 15c; small, 10c. Blts. 100 for 50c.

Ambrosia—A distinctive old rose. Large, \$1.50; medium, \$1.25; small, \$1.00. Blts. 10 for 50c.

American Beauty (Diener)—American Beauty color. Large, 15c; medium, 10c; small, 5c.

Angel's Dream (E)—Fine La France pink. Large, 50c; medium, 40c; small, 25c. Blts. 100 for \$2.00.

Annie Laurie—Shell pink heavily ruffled. Early and a good cut flower variety. Large, 10c; medium, 7c; small, 5c. Blts. 100 for 20c.

Anna Eberius—Deep rhodamine purple. Fine cut flower. Large, 10c. Large bulbs, 100 for \$2.50.

Antoine—Prim. Hybrid. Clear, deep yellow. Ruffled. Large, 25c; medium, 20c; small, 15c. Blts. 100 for \$1.00.

Apricot Glow—Prim. Hybrid. Apricot shade. Large, 10c; medium, 5c. Blts. 100 for 20c.

Arabia (Hinkle)—Very dark red. Large, 10c. Blts. 50 for 25c.

Aristocrat—Prim. Hybrid. Pale saffron, flaked orange. Large, 10c. Blts. 100 for 25c.

Ave Maria (Pfitzer)—Large, light blue flowers with purple blotches. Well expanded blooms of good substance. Large, 50c; medium, 40c; small, 30c. Blts. 10 for 30c.

Bengal Tiger—Orange flaked. Large, 10c.

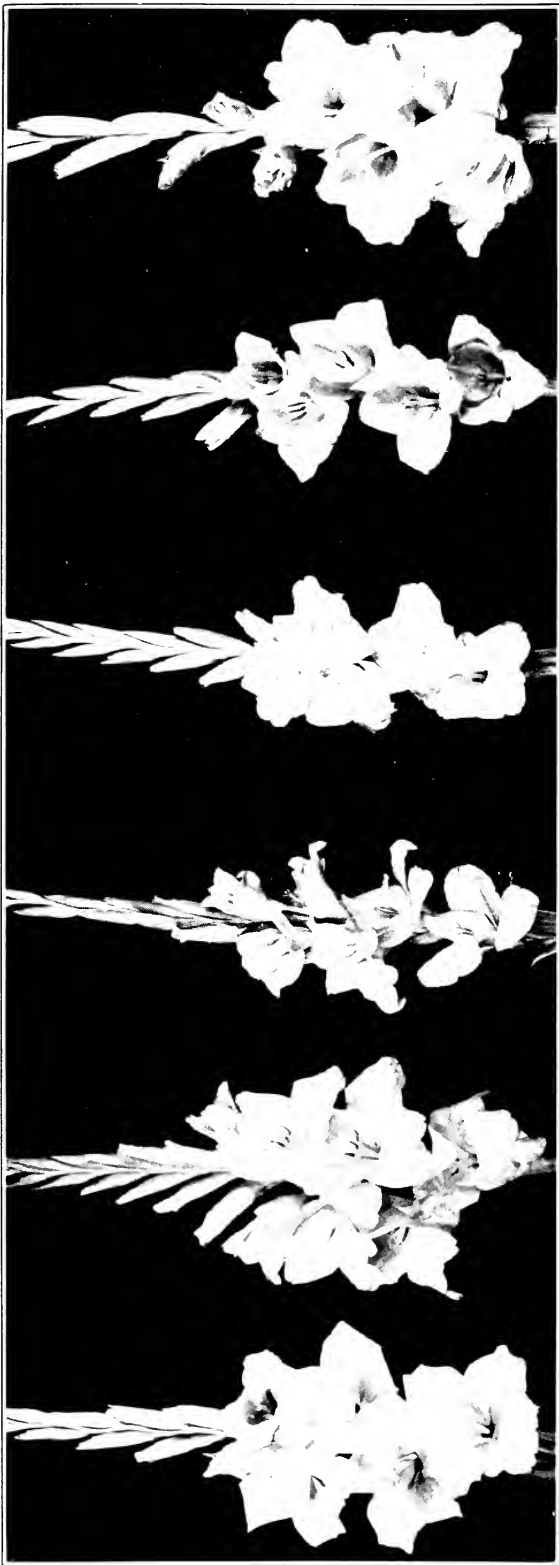

Berty Snow—Pinkish lavender. Large flowers. Large, 20c; medium, 15c; small, 10c. Blts. 25 for 25c.

Betty Nuthall—Glowing orange-pink with pale orange throat and a light feathering of carmine. Flowers of gigantic size and splendid substance. Spikes long and strong. Large, 20c; medium, 15c; small, 10c. Blts. 50 for 50c.

RIVERVIEW GARDENS, ST. PAUL, MINN.

- Beverley**—Violet-rose. Deep red blotch. Large, 10c; medium, 5c. Blts. 100 for 15c.
- Bill Sowden**—Deep crimson. Large, \$2.50.

Wm. Kent (D)—Creamy shell-pink with golden ochre center. Very large and beautifully ruffled. Large, 20c; medium, 15c; small, 10c. Blts. 50 for 25c.

Wuertembergia—Scarlet. Large, \$6.00.

Yvonne—Blush white with rose blotch. Large, 10c.

Zona—Prim. Hybrid. Light salmon-rose pink. Large, 10c.

Fancy Mixed

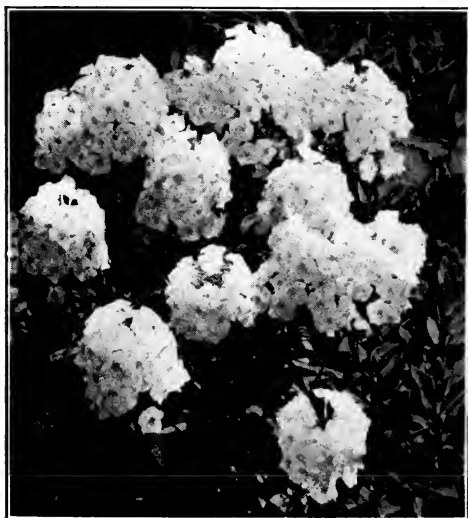

Fancy Mixed—All colors. Large bulbs \$2.50 per 100. Extra fancy mixed, 50c per dozen.

Hardy Perennials

Hardy perennials rightfully have an important place in the most beautiful gardens of today. The plants we offer are strong field grown specimens which will make a good showing the first year.

Hardy Phlox

This beautiful flower is one of the most desirable of hardy perennials. They are easy to cultivate, the season of blooming is long, and they furnish a great variety in color. Phlox are extremely effective, either as single specimens, in small groups, or in large beds on the lawn. They can be used to good advantage in a border planting in front of shrubbery. From a few shoots many new shoots come up so that in a short time a nice bed of Phlox is permanently provided.

Deutschland—Large trusses of brilliant dark orange-red \$.50

- Dr. Konigshofer**—Very brilliant scarlet, with blood-red eye. Medium height. Midseason. Not a strong grower. 50c each, 5.00 per dozen.
- Elizabeth Campbell**—Bright salmon-pink with lighter shadings and dark red eye; one of the handsomest and most attractive.....\$.50
- Frau Anton Buchner**—Pure white. Has a strong habit and produces flowers of an enormous size and perfect form50
- Mme. Paul Dutrie**—Soft pink suffused white. .50
- Miss Lingard**—Pure white; the earliest of all. Blooms all summer; good for cut flowers.. .50
- Von Hoboken**—Pure soft pink without eye, large flower on long erect stems. A very fine novelty50
- Siebold**—An improved Coquelicot; vivid orange-scarlet; somewhat brighter and a stronger grower50
- Widar**—Light reddish violet with very large white center50

Lilium Regale

This new lily is becoming very popular. Its waxy white and beautifully formed great blossoms have a tinge of primrose yellow in the throat, while the outsides of the petals have a deep rose blush. They are very hardy, but it is very important to give them a liberal covering with marsh hay or other materials that will keep them dry during the winter. They should be planted to a depth of 8 inches or more.

Large bulbs, 50c; medium sized bulbs, 25c each.

Delphinium

(Perennial Larkspur)

Our strain of Riverview Giants, we are pleased to offer you is the result of years of effort to produce more beautiful flowers. There are few plants so handsome as perennial larkspurs. They are valuable for their great variety in height, varying from 4 to 10 feet; for their great variety in shades of color, varying from the palest lavender through

every conceivable shade of palest blue to deep indigo. They thrive in almost any situation or soil and are easily increased, being perfectly hardy. A good, deep, rich soil will repay with larger and better flowers. Remove the flower before the seed pods form and they will flower later in the season again.

Those who have seen the Riverview Giants do not need to be told what they are. For those who have not we can only say that they surpass anything known anywhere for variety, thriftiness, generosity

of blooming, and their unimaginable beauty in bed or as a cut flower. Everywhere they take first prizes. We were contemplating selling separate varieties, but have decided to give you the benefit of an extraordinary assortment, full of surprise and delight.

Plants are sent by Express Charges Collect. If wanted by Parcel Post, enclose \$0.10 for each plant, additional.

One-year old plants, 25c each; per dozen, \$2.50.

Strong two-year plants, 50c each; per dozen, \$5.00.

Statice

(Sea Lavender)

Statice Latifolia—Beautiful small lavender flowers; prized for winter decorations. With large spreading panicles of light graceful flowers.

Strong plants, one year old, 25c each; per doz., \$2.50.

Strong plants, two years old, 50c each.

If wanted by Parcel Post enclose 10c for each plant.

Gypsophila

(Baby's Breath)

Gypsophila Paniculata fl. pl.—Double grafted, true stock, not seedlings. Minute pure white, flowers double, fine for cutting or as a dry flower. Strong plants, \$1.00 each.

Aquilegia

(Columbine)

Long Spurred Hybrids

Our strain of hybrids have received many rewards. The blooms are large in size, the spurs are long. The colors, ranging through lavender, blue, purple, cream, white, yellow, pink and red.

Plants one year old, 25c each; per dozen, \$2.50.

Plants, two years old, 50c each; per dozen, \$5.00.

If wanted by Parcel Post enclose 10c for each plant, additional.

Our Bulbs

We exercise great care in growing our 12 acres of Glads, and caring for the bulbs at all stages. All bulbs sent out are strictly healthy, young, vigorous, and of the proper sizes. Our curing and storing methods are also superior to many of less experienced growers, and all this goes to make QUALITY. We do not aim to make our prices conform with "novice growers" nor price cutters, who often buy their bulbs from uncertain sources. QUALITY cannot be furnished in that way. This accounts largely for the great success of our customers in growing bulbs bought from us. Your success depends upon quality and our success depends upon yours. QUALITY is what we want to give you. Even though you may think some of the prices a little high, the increase, if cared for, in two years makes the first cost of minor importance.

Don't fail to visit us at
RIVERVIEW GARDENS

especially during the Gladiolus,
Iris and Peony Season.

From Minneapolis, drive thru
Fort Snelling and over the
Mendota bridge. After cross-
ing the bridge . . . turn to the
left onto the Sibley Memorial
« « « Highway. » » »

From St. Paul, come out either
over the High Bridge or the
Wabasha Street Bridge.

You are always welcome.

RIVERVIEW GARDENS

A. J. WILKUS, Proprietor

909 Winslow Avenue, ST. PAUL, MINN.
